COUNTY FAIR WAS A GREAT SUCCESS.

Probably the Largest and Best Meeting
Ever Held in Lawrence
County.

The fair held by the Lawrence County Agricultural Association, at which a necessarily brief notice was made last week by the NEWS, has passed into history as the most successful fair ever held in Louisa. The showing made in the various departments was exceptionally fine not only for this section, but it would have compared favorably in many respects with the display made by older and much richer associations in more highly favored parts of the State.

The weather was all that could be desired for such an occasion, and the attendance very large during the four days the fair was held. It has been said by many who are familiar with such things that on Thursday and Friday the crowds were larger than on any other day. The fair was held in the Louisa fair grounds, which had been before in this city. They came by train, automobile, car, stage, wagon, and on horseback, on foot and by any other means by which they could get there, and there was no floor with mounting.

The various displays were a revelation to many, to most of our people and to all who had come from other counties, and were the cause of much favorable comment. Few of those familiar with our people had any idea that our farmers could raise such stock, such fruit, and such vegetables, that our good women could make such butter, such bread, pastry, pickles and preserves, and make such a showing of canned stuff and show such evidence of neatness and skill as would successfully challenge any other part of the State to produce.

Expert stockmen from other sections of the country came and saw and examined the exhibit of cattle, horses, mules and dogs and declared that it would attract attention at any fair in the State of Kentucky. This was high and deserved praise.

The offerings of fruit, particularly apples, were surprisingly good, showing that with intelligent industry and proper care this part of Kentucky will soon have a reputation for the fruit equalling that of the sister State of West Virginia. The best corn, the best Irish potatoes, some planted as late as July, the biggest squash and pumpkins, and other vegetables of the same good quality were displayed in large variety. The display of clover, alfalfa, and similar crops was by far the best ever made in the county.

Not the least interesting, in fact, one of the most attractive exhibits of the 1914 county fair was the display of articles which were the handiwork of the pupils of the county schools. They were shown in the court room and were the means of the interest of hundreds of people who were here in admiration and praise of what they saw. The girls and boys who made this really wonderful contribution to the fair are entitled to great credit for their skill and industry, and the teachers who encouraged them to do this good work are worthy of praise.

What is known as the Brown lot, a level tract of land on the western edge of town, had been secured by the Association for the purpose and was used as a place for the horse show and for racing. It is well adapted for this, and it was well used. Here the high steps showed their various faults, and here, when the crowd was kept out of the way, which was done with difficulty, the races were run. In this department, as in the others, the entries were numerous and fine, showing the effect of breeding to good stock instead of scrub.

In fact this whole show of stock, product of the soil and hands is tangible, striking evidence of what a well organized, properly conducted agricultural association can do for the improvement of live stock and for the improvement along all lines of farm industry. The success of this year's fair should and will stimulate the officers of the association to renewed effort, and it should and will stir up the people to do more and better work to have more and better exhibits in 1915. All who had any part in the late fair are entitled to a full measure of praise.

Notes.

The Association had thoughtfully provided a big watering trough for the comfort of horses and cattle and it was no doubt appreciated by these sometimes not well treated brutes.

A rest room for women had been provided in the court house and was well taken care of by Mrs. Charles Diamond. It was an important part of the fair.

The "spelling bee" held on the last day was an interesting and amusing contest. It was conducted on lines somewhat different from those of last year. There were many contestants, and to them were pronounced 50 words, the prize, \$2.00, to be given to the one who correctly spelled the most. Miss Mollie Roberts, of Busseyville, was the winner, correctly spelling 58. John Burke, of Blaine, was a very close second. Miss Roberts last year correctly spelled more words than her competitors, 88 out of 100.

Two ladies from Mt. Sterling, names unknown, judged all the exhibits in the ladies' department and awarded all the premiums. They knew no one in the county, hence there can be no just claim that partiality was shown in

the awards. After the close of the fair on Saturday the various donations of merchandise, etc., which had been made to the fair were sold by auction to the highest bidder. The money derived from the sale was used to pay cash premiums. H. C. Sullivan was the auctioneer.

The entries in the baby contest were numerous and perplexing to the judges. In the handsome baby class Friday the son of Mr. and Mrs. R. A. Brink, of this city, won the prize. The little daughter of Mr. and Mrs. John Henry Friere was awarded two premiums, one for health and one for good looks.

Paul, the young son of Mr. and Mrs. C. C. Cheek, won the prize for health and general appearance.

The business men of Louisa have no grounds for complaint on the score made during the fair. Some say that the sales were much better than for any previous week.

About 1200 pupils from the county schools attended the fair.

PHYSICIAN FOUND DEAD.

Dr. H. P. Ferguson, prominent physician and pharmacist of Carter, Ky., aged 74 years, was found dead in bed at the home of his only son, Robert Ferguson, at Portsmouth, O., Tuesday morning.

FAITHFUL TEACHER.

Reports from Miss Lottie Richards, who is teaching at the Adams school at Tripoli, that 64 have been enrolled in her month school. Morehead Mountaineer.

Louisa U. S. Engineer's Office to be Discontinued.

Mr. L. S. Johnson Transferred to Kentucky River.

The U. S. Engineer office at this point has been discontinued and Mr. L. S. Johnson has been ordered to Frankfort to take charge of the improvement of the Kentucky river. This order was received by Mr. Johnson last week and he is now packing his household effects preparatory to leaving for Frankfort, where he and his family will reside so long as he has charge of the river.

Mr. R. P. Thomas, who had charge of the Frankfort office during Mr. Johnson's stay in Louisa, has been ordered to Cincinnati for duty in the U. S. Engineer office there and has already come to his new post.

Mr. Johnson will have no immediate successor, as the office here has been discontinued and the business of the office will be done through the office at Cincinnati.

It is said that an engineer of Mr. Thomas' experience and executive ability was needed in the Cincinnati office, and his transfer from the Kentucky river made a good place for Mr. Johnson when the Louisa position should be abolished. He is entirely competent for the place. He does not know exactly when he and his family will leave Louisa.

HOSPITAL NOTES.

The Louisa hospital has been the scene of several operations during the past week, some of them being quite serious. Two were performed on Saturday last. One was done on the person of Mrs. William Chapman, of Georges Creek, for her relief from a painful trouble of long standing.

A Miss Thompson, aged 15 years, a daughter of Marlin Thompson, of Effie, Wayne county, was operated on for the relief of a tubercular affection of the right leg. Amputation between the knee and hip was done as the only means which promised permanent good.

On Saturday Mrs. Robert Akers, of Lick Creek, submitted to an abdominal operation for tubercular peritonitis. She is 31 years old and is a daughter of Felix See. These patients are doing well. The operator was Dr. York.

Lawrence Fiscal Court in Session This Week.

Convict Labor to be Secured for Work on County Roads.

The Lawrence County Fiscal Court held its regular full term this week, beginning on Tuesday, all the magistrates being present. The usual business of a Court of Claims occupied the attention of the members.

The Court showed itself alive to the good of the county by its prompt action in the matter of employing convict labor on the roads. The Board of Prison Commissioners will be asked to send 20 convicts to Lawrence county for work on the public highway. The Attorney General has given an opinion declaring that the roads belong to the county and are public works, and as such can be made and worked by public labor. Of course the request of the Fiscal Court cannot be complied with at once, but there is not much doubt that when the matter has been fully settled convict labor will be so employed, and the Court's action shows that it is in the front in the matter of improving the highways of the county.

FATALLY INJURED BY FALL OF HORSE.

Death Follows Injuries Received When
Horse Fell on Man Near
Fort Gay.

While riding a horse near what is known as the Hobby Wellman place, not far from Fort Gay, Joe Davis on Sunday evening last received injuries which probably resulted in his death. As told by two little girls who saw the accident Davis jerked the horse, which caused it to rear and fall backwards, Davis fell under the animal and was not found until Monday morning. The girls told some neighbors who went to the relief of the unfortunate man, but by some mischance they missed the place where the accident occurred.

The man was taken to the residence of Sam Welch, who lives at the Wellman place, and surgical aid summoned. Dr. T. D. Burgess, of this city, responded to the call and rendered all possible assistance.

Davis is said to be paralyzed and unconscious. He is a brother of the Davis girls of Hubbardsville, who were famous for their great size, but Mr. Davis himself is of ordinary stature.

LATIMER—Mr. Davis was taken to a hospital in Welch, where he died a few minutes after being received.

SUPPLY TRAIN COMING UP. BIG SANDY DIVISION.

The supply train which moves over the C. & O. every two months, supplying agents, section foremen and other employees with stationery, oil, etc., moves over the Lexington district Monday, October 5th; Big Sandy division on Tuesday, October 6th, and Cincinnati division Wednesday, October 7th.

ENGINEER IN CHARGE OF NEW C. & O. BRIDGES.

Mr. F. F. Allen, of the C. & O. engineering corps, arrived here Monday from St. Albans, W. Va., and will have charge of the construction of the new bridge which will cross the Levisa fork near Waterbridge. He is known as one of the most experienced and competent civil engineers in the service of the C. & O. The Levisa Creek branch of the C. & O. was built under Mr. Allen's supervision. He will also have charge of the construction of the new bridge at Buchanan. He and Mrs. Allen, who arrived with her husband, are at the Louisa Inn. They will probably be in Louisa about a year.

Injuries Prove Fatal When Hit by Train.

Operation Fails to Save the Life of Cecil Wellman.

On Monday last Cecil Wellman, of this city, died at the home of his father, James Harvey Wellman, the result of injuries received in attempting to jump on a Big Sandy train at Chatterbox. On Tuesday afternoon he was buried in the cemetery following appropriate services conducted by the Rev. J. H. Hamilton, at the Christian Church, the pastor, Rev. A. M. Dind, being absent. Mr. Hamilton spoke feelingly of the unfortunate young man and his untimely death, drawing lessons from it which would be useful for all who heard him.

The accident which caused the young man's death occurred on a Monday, just two weeks before death relieved him from his suffering. He had been brought to his home, where he received the best possible care and attention, nothing being left undone which could cause his recovery. He was 22 years old.

He was a member of the Christian Church, having joined that body about four years ago.

CHANGES IN C. & O. FAMILY HAVE BEEN ANNOUNCED.

The following changes have been announced in the official family of the C. & O. by President Stevens: E. W. Grice, assistant general manager, is appointed assistant to the president.

C. C. Walker, assistant to the general manager, is appointed superintendent of passenger transportation. E. P. Goodwin, superintendent of transportation, is appointed superintendent of freight transportation.

The position of general manager has been abolished. The various superintendents of the various general divisions will have full control of their respective divisions with usual authority of a general manager and will report direct to the president.

In the position of assistant to the president, Mr. Grice will be the active head of the operating department and will have the authority he formerly had before M. J. Caples and George Johnson came to the road.

G. W. Martin is appointed supervisor of track, Paintsville district, vice Mr. A. E. Hottel, promoted, with headquarters at Louisville.

N. & W. TRACK FOREMAN DANGEROUSLY INJURED.

While directing the unloading of heavy steel girders from N. & W. cars in the Kenova yards last Monday Walter Whitaker, track foreman, was probably fatally injured. He was standing under one of the girders which was suspended in the air when the chain broke and the girder fell and struck the unfortunate man crushing him to the ground.

His right arm was fearfully mangled and he had several ribs broken, but his chief danger lies, we learn, in concussion of the brain.

He was taken to the Huntington general hospital where he lies in a critical condition. Cerebro Advance.

PIONEER CITIZEN OF WEST VIRGINIA DEAD.

Alonso Toney, aged 70, died at the home of his son in Huntington. He had been in failing health for several years.

He was a veteran of the Civil War and served with distinction in the Southern army. He was engaged in the lumber business, but was forced to retire several years ago on account of bad health.

He is survived by three sons, A. G., T. H. and W. A. Toney, of Huntington, and by two daughters, Mrs. E. T. Gwinn, of Kenova, and Mrs. H. R. Maist, of Richmond, Va., and four brothers.

The funeral was in charge of Camp Garnett Confederate Veterans.

Ex-Sheriff John H. Carter Victim of Typhoid Fever.

Died Thursday Morning After an Illness of About Two Weeks.

John H. Carter, of the firm of Gartin & Carter, this city, died at his home on Jefferson street about 9:00 o'clock Thursday morning. He had been sick for some time of what was supposed to be a stomach trouble, for the relief of which he had talked of going to some watering place. Two weeks ago, however, he was stricken with typhoid fever, which in spite of the best care and medical aid, was the cause of his untimely decease.

He was buried on Friday at the old home graveyard on Sand Branch, this county, near the place where he was born forty-six years ago.

Mr. Carter is survived by his widow and five children—a son, Will, and four daughters, namely, Mrs. Tom Derfield, Mrs. Allen Roberts, Mrs. Will Aboe, and one unmarried daughter, Miss Larna. He is also survived by his aged father, James Carter, of Sand Branch.

John Carter was well and favorably known throughout Lawrence county. In 1909 he was elected Sheriff and made a most efficient officer. He was active and honest in the discharge of his duties, settling with both the State and county to the utmost penny. He was a sober, honest man, a good neighbor and friend. He was a kind husband and father, a man of much intelligence and business capacity and a good citizen.

Some months ago he moved to this city, where he was highly esteemed by all who knew him. The death of such a man before he had reached the meridian of life is felt and regretted.

Boy's Pig Clubs in Lawrence County.

Mr. T. E. Stokes Here This Week in Regard to Organization.

Mr. T. E. Stokes, of Lexington, was here on Saturday last. He is connected with the State Agricultural Extension Department, and his business here was to create an interest among the boys of the county in the formation of boys' pig clubs. Mr. Stokes' stay was necessarily short, but he expects to return at an early date and will then have an opportunity of meeting more of our people and discussing with them this interesting matter.

Pig clubs are now found all over Kentucky, and much good is expected to result from their organization. All boys between the ages of 10 and 18 years are eligible for membership. The club will be instructed in the breeding and raising of hogs, something which should interest not only the boys but their fathers as well. There is big money in pork, and the outlook for bigger money in the future is good.

Mr. Stokes' next visit he wants to meet as many of the county teachers as possible in order to create an interest in this matter. Lawrence county must be alive to everything that promises a betterment of her condition, and even clubs and pig clubs surely are strong actors in the work of improving farms and animal husbandry. Get the boys interested by showing them how to improve stock, and the first way to interest them is to give them the personal ownership of good stock of some kind, and pigs are certainly a good kind. Then urge them to join a club.

The NEWS will try to keep the boys posted concerning Mr. Stokes.

Bad Fire Visits Grayson Last Sunday Morning.

Carter County Seat Suffers \$20,000 Loss from Flames.

Grayson, Ky., Oct. 4.—At 5 o'clock this morning the storemans of the Buckley Jewelry Company and the millinery and furnishing store of Mrs. Morise Yates were discovered on fire in the rear. The fire was so far advanced that it could not be stopped, and communicated to the hardware store of L. W. Woods, the undertaking establishment of James Potts, to the law offices of Armstrong & Wolford, the barber shop of John Phillips and the grocery store of Misses Botts, where it was stopped. The large garage of G. W. Armstrong in the rear of the store buildings was burned.

A bucket brigade succeeded in saving several frame buildings, although the great heat scorched them badly. Pinto glass windows in the bank and store buildings across the street were destroyed. Part of the things were saved. The undertaking establishment and the Yates store was an entire loss. Knights of the Golden Eagle, Red Men and Knights of Pythias were losers.

The insurance rates on the frame block were prohibitory, and there was no insurance on the goods. Four of the buildings belonged to G. W. Armstrong, four to R. M. Bugby and one to John Phillips. The total loss is about \$20,000. The fire is believed to have been of incendiary origin.

Live Stock Sales Day
Monday, October 19.

Don't Forget to Bring Your Live Stock
to Louisa on That Day.

Stock sales day for County Court, October 19th, assured. The management of these sales has the assurance of a number of buyers to be on hand for that day and those who have stock to offer can be sure of a buyer if they will bring in their stock. They also have arrangements for pasture at a reasonable rate for any stock that may not be sold. It is hoped that every farmer and stockman in the county will join in and help to make these sales days a success.

NEWS OF GENERAL
INTEREST FROM THE
WORLD AT LARGE.

FRIDAY.

Another day has passed and the situation between the Allied armies and the Germans in Northern France is still described by the French official announcements as satisfactory with here and there progress along the line. The battle on the Aisne gives every indication of being the greatest in history as to duration, losses and possibly in significance with respect to the outcome of the greatest war the world has ever seen.

British re-enforcements have reached France to strengthen the small British army which for many weeks past has been doing yeoman service beside its French allies.

The Germans are continuing their campaign in Belgium by an attack on the outer defenses of Antwerp, and are rushing thousands of troops and an immense supply of war material to the Russian frontier in a supreme effort to ward off the Russian advance. While Berlin officially is silent on the progress of the war, a German newspaper expresses the confidence of the German people that further news from the battle fronts will be in favor of the German arms.

Russians foiled two determined attempts of the Germans to force a passage of the Nieman River. According to newspapers, the German losses at Druskenik amounted to 20,000.

Warning that Philippine independence meant surrender of American strategic command of the Pacific, "the fighting ground of the future," and that a conflict between the Orient and the United States, commercial or otherwise, was inevitable, was given the House by Republican Leader Mann, in vigorous speech opposing the Administration Philippine Bill.

The war revenue tax upon gasoline has been eliminated by the Senate committee working on the War Tax Bill, and a tax upon automobiles, according to horsepower, substituted instead.

The effect of the war upon Government revenue was demonstrated yesterday by the Treasury report for September, which showed an excess of disbursements of \$9,500,000.

Conferences in Washington and London are expected to fix in a few days the terms under which products to and from the United States may be shipped through neutral countries.

The Washington Administration hopes that with the withdrawal of Carranza and the elevation of Calderon permanent peace in Mexico will be obtained.

Russia and the United States yesterday signed the twenty-seventh of the peace treaties agreed to between this Government and foreign nations.

SATURDAY.

The French and British troops, that have been over a fortnight in the closest contact with the Germans, felt that they had accomplished their hard task of preventing the Germans from breaking through the human barrier erected between them and Paris, and that this meant victory eventually for the Allies. The great turning movement of the Allies continues, and their Western wing is extending toward Arras.

Belgians have placed machine guns on the church towers of Antwerp, but the siege of the city is progressing. The Germans have occupied Malines and given orders to spare the cathedral. The Union oil tanker was sunk by the German cruiser Leipzig off the coast of Central America. A rumor reached New York that the German cruiser Dresden had been sunk by two British warships.

Leaders of the movement to dispose of the vast cotton yield which this year will be left in American hands because of war in Europe were given a more definite idea of the size of the new crop when the Department of Agriculture announced it would amount to approximately 15,300,000 bales of 500 pounds each.

That the only way the United States can find out if the Philippines are capable of self-government is to give them from time to time the chance to manage their own affairs, was the statement made in the House yesterday by Representative Sherry.

Secretary of the Navy Daniels, and possibly Secretary of State Bryan, will take part in the Democratic campaign in Kentucky, the former speaking at Elizabethtown on October 15 and the latter probably in Louisville on the night of October 16.

The Senate Finance Committee yesterday cut the tax on gasoline to 1 cent a gallon and added a tax of 50 cents a horsepower upon automobile sales. Other features of the bill will be considered today.

Southern Congressmen will object to the adjournment of Congress on October 15 unless something is done to relieve the cotton situation.

The question of docking guards of the State Reformatory for time lost off duty has been put up to State Auditor Bosworth.

SUNDAY.

The latest report on the movements of Emperor William is that he has left Breslau for Thorn, West Prussia. Reports say that the right wing of the German army in France has repulsed renewed efforts to outflank it, and that German troops advanced in the Argonne have made substantial progress. Fort Wachen, at Antwerp, has been

invested, the report says.

Fear of the German cruiser *Leopold* has crippled shipping in the South Pacific. British vessels have discontinued sailings from Panama. Two English ships are reported to have been sunk by the German cruiser.

Roye is still the center of a battle of great violence. The Germans are fighting stubbornly to protect their flank, and have brought up re-enforcements. It is claimed the German Crown Prince's army of 840,000 men, has been driven back north of Valenciennes. The cost of the war to France is \$7,000,000 per day. 7420,000,000 having been expended since the beginning of hostilities.

Conflicting reports from Pictou reported a new invasion of Russian Poland by the Germans, and at the same time said that the Germans had all been driven from Russian territory and that thousands drowned in the Nieman River, which they attempted to cross. Heavy fighting continues at Angastown. The Russians claim to have occupied Ruzdov, Kalvary and Marupol. The defeat of the Austrians in the Carpathians is reported.

The Belgian location issued an official announcement that on the east of the River Sambre the defense of Antwerp has been forced to fall back to the River Nethe before the violent attack of the German artillery, after a desperate resistance of five days. The position of the Nethe is very strong, the report says.

Nish dispatches state that the Serbians captured much artillery and other booty when Semlin fell into their hands.

Great precautions are being taken by the Netherlands to prevent the exportation of foodstuffs to any belligerents. Martial law has been declared in a zone all along the border.

Democrats are pleased with the aid that the Administration is extending in the campaign fight. It is expected that half of the Cabinet officers will take the stump, and in addition, the President will write letters of endorsement for the various candidates.

Reports received by the State Department yesterday left the Administration to have brighter hopes for peace in Mexico. The conference of all factions at Aguas Calientes October 10, it is believed, will settle all problems.

Representative A. O. Stanley took Minority Leader Mann to task for his recent speech in which war in the Pacific was forecast, and predicted tranquillity in commerce for the United States.

MONDAY.

The Belgians claim to have repulsed the German attacks on the fortresses around Antwerp, although Berlin officially reports the destruction of several of the forts, as well as satisfactory progress on the main front.

In the battle of Angastown, in Russian Poland, victory is claimed for the Russian army. President Poincare and Emperor Nicholas have started for the front, probably only with the intention of cheering the men who are fighting for their countries.

A casualty list issued by the British official bureau shows the loss of 727 noncommissioned officers and men in the battles of the Aisne, of whom 55 were killed. Those lost, exclusive of officers, in the sinking of the cruisers *Aboukir*, *Cressy* and *Hogue*, is given as 1,433.

An Italian force is reported to have landed at Adria, an important seaport on the Adriatic which may foreshadow a change in the Italian policy of neutrality.

The Japanese, in their campaign against the German concession of Kiau Chiau, have been re-enforced at Wei Hsien, in Shantung province. Having made answer to the protest of the Chinese Government, they are proceeding with the business in hand without further comment.

Peace prayer services were held all over the United States Sunday in accordance with the proclamation issued by President Wilson, who attended the services of the Presbyterian church in Washington.

With the prospect of near adjournment after eighteen months' continuous session Congressmen are eager to get home for their political campaigns. Both houses will be through with their present tasks by October 17.

TUESDAY.

A report from Berlin that British ships have arrived at Lisbon and that Portugal's co-operation with the Allies in the war is immediate, brought forth a statement from the President's Chamber at Washington that his country was prepared to take such a step whenever Great Britain should call upon her to do so, under the treaty of mutual protection existing between the two countries.

Great Britain is investigating cotton shipments from the United States under the suspicion that the cargo, instead of reaching the ports to which they are consigned, reach German warships at sea. The Prince of Wales' relief fund has reached \$15,000,000.

The call of the German Ambassador, at the State Department, where he conferred with Secretary Bryan, aroused much speculation in diplomatic circles as to the possibility that further efforts had been set in motion, indirectly at least, to bring about peace in Europe.

A plan for raising a cotton loan fund of \$150,000,000, proposed by a conference of St. Louis bankers, was ratified by a delegation of bankers from cotton growing states and now awaits only the approval of Secretary McAdoo and the Federal Reserve Board.

Public school laxity is to blame for a large percentage of the crime in this country, according to speakers before the convention of the American Prison Association.

"GETS-IT," 2 Drops,
Corn Vanishes!

The Only Sure Ender of All Corns

Desperate, are you, over trying to get rid of corns? Quit using old formulas under new names, bandages, whiting-fat, and cut never flings that make a fat little package out of your

This is the Grip of the Happy, Cornless Foot of "GETS-IT"

too. Quit punishing your feet by using toe-eating salves and ointments. To use knives, files, scissors and razors, slicing and hacking at a corn, only make it grow faster and bigger. It also brings danger of bleeding and blood poison. The new way, the new principle never known before in corn-killing, is "GETS-IT." It's a liquid—2 drops on a corn does the work. Pain goes, the corn begins to shrivel and out it comes! You apply it in two seconds. Nothing to stick, nothing to hurt and it never falls. Try "GETS-IT" tonight on corns, calluses, warts or bunions. "GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. "GETS-IT" is sold in Louisa by LOUISA DRUG COMPANY and J. H. REYNOLDS.

was agreed upon by representatives of the American Clothing Manufacturers' Association and the New York branch of the United Garment Workers of America.

El Paso representatives of the Carranza Government maintain that the action of the recent convention in Mexico City in declining the renunciation of Gen. Carranza decides definitely who should act as Provisional President.

Democrats of the Senate will caucus today in an effort to settle differences on the War Revenue Bill and to expedite remaining legislative business with a view to early adjournment.

It is estimated that 2,500 persons lost their lives in the earthquake that visited the province of Konia, Asia Minor.

SING A SONG OF GLADNESS.

Have you tried to measure the depth of Europe's war?

Have you looked beyond the glare and glitter and pomp of marching armies to the horrors of battlefields which make all of Dante's imaginations of the inferno seem tame and commonplace?

Have you opened your soul to a study of what it means to have 400,000,000 people in an agony of suspense, of suffering, of aching, and breaking hearts, for every shell fired, though it misses its mark, yet strikes some woman's or child's heart?

Have you thought that never in the history was there such an awful weight upon so many millions of people, and that never before did the angels of Heaven look down upon so much human suffering, physical and mental, as now?

Have you thought of the millions and millions who in their homes will suffer in deepest poverty, and who this winter will know more of famine and of starvation than the world has ever known before, while husbands and fathers and brothers and sweethearts will day after day be among the killers or the killed?

And as you think of these things, is not your heart so full of gratitude for the blessings enjoyed by you and every man, woman and child who has the privilege of living in this country, and there is no room left in your soul for worrying over the petty things that confront us in business?

Sing a song of gladness—a song of thanksgiving every hour of your life. Make the best of the situation even though you may have many real burdens to carry, and the clouds will pass away ere you know it. Manufacturers Record.

And one strong inspiration to sing this song of gladness is the fact that Woodrow Wilson is, by the grace of God and the American people, the President of the United States.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

WEST VIRGINIA
ITEMS OF NEWS.

Old Citizen Dead.

Alfred Napier, who was well known throughout Wayne county and the Sandy river, was born July 3, 1840, died Sept. 18, 1914, aged 74 years, 2 months and 15 days. He lived the greater part of his life in Wayne county and at the time of his death resided near Radnor.

Alfred Napier was a son of Edmund Napier, a pioneer preacher. His mother was Ella Mitchell, who was of Irish descent. The deceased was twice married. His first wife was Cynthia Adkins, daughter of Owen and Mary (Hanson) Adkins. She died in 1883 in Huntington, W. Va. To this union were born nine children, only three of whom are living, namely: Mrs. Mackie Bess, of Hinton; Edmund Napier, of near Wilsouale; and Sam Napier, of Huntington. By his second marriage there were twelve children, all of whom, excepting two, are living. All his children were present at the burial. *Verde Advance.*

Agent Robbed.

Grady Crites, station agent at Big Creek, was robbed of an express package containing \$25 last week, and as yet there is no clue to the identity of the thief or thieves. The money was taken from the station mail box where it had been temporarily placed by Mr. Crites while he attended to other urgent duties. He returned for it in a few minutes but some one had evidently been aware of the contents of the package and watched where the agent put it, had reached in through the window in the meantime and secured and made off with the package. It is understood that Mr. Crites will have to make good the loss personally if the money is not recovered promptly. *Logan Democrat.*

Effect of Yost Law.

A recheck is felt in Huntington police circles this month for the first time since the Yost prohibition law became effective. The total arrests was 242, or 101 less than last month. Of this number 59 were charged with drunkenness. As were arrested for this offense in the previous month. The receipts from cash fines amounted to \$187. One feature of the report will be the number of minors arrested. There were 20 during the last month as against 53 for the preceding term.

Preacher Fined for "Cussing."

The Rev. D. M. Jarrett was fined \$1 and costs for using profane language. An Italian contractor charged Jarrett with being drunk and profane language in a controversy with some of his men over an alleged board bill. The preacher did not appear in court. *Charleston Gazette.*

THE OCTOBER WOMAN'S
HOME COMPANION.

One of the special features of the October Woman's Home Companion is a call to American women to support American industries. The idea is that in the past American women have preferred imported goods, and that in the present crisis they have a splendid chance to show real patriotism by supporting our American industries. The author of the article is Ida M. Tarbell.

Another special war feature of great interest is a French woman's personal recollections of the siege of Paris at the close of the Franco-Prussian war. The new dances are also described with illustrations in color by Troy Kliney. Ralph Waldo Trine writes curiously under the title, "When Is Youth—What After Youth?" Laura Speiser Porter gives splendid advice under the heading, "How to Start Your Laundry." Anna Steese Richard, son, director of the Better Babies Bureau of the Woman's Home Companion, contributes news of the movement and suggestions under the heading, "What Every Mother Wants to Know," and a minister of the Gospel goes on with his series of articles relating his pastoral experiences with women.

The fashion department, conducted by Grace Margaret Gould, fashion editor of the Woman's Home Companion, is filled with the latest news and suggestions, beautifully illustrated and admirably adapted to the practical needs of women.

Fiction of singular interest and power is contributed by Grace S. Richmond, Mary Heaton Vorse, Margaretta Spalding Perry, Fannie Heasley Lee, Kathleen Norris, and Temple Bailey. The regular departments—About People, Tower Room, Entertainment, Young People's, Cooking, and House-keeping—complete an entertaining and practically helpful number.

How to Remove Spots From Floors. In the October Woman's Home Companion appears a department called "The Exchange"—a department devoted to household ideas contributed by readers. A Massachusetts woman tells us how to remove grease spots from floors.

"So many women grieve because there are grease spots on their kitchen floors and water with any amount of scrubbing will not remove them; just try alcohol to remove these same spots, and you will be pleased with the result."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Your hair gets soft,
fluffy and luxuriant at once.

If you care for heavy hair, that
glitters with beauty and is radiant
with life, has an incomparable softness
and is fluffy and lustrous, try Danderuff.
Just one application doubles the
beauty of your hair, besides it immedi-
ately dissolves every particle of dan-
druff; you cannot have nice, heavy,
healthy hair if you have dandruff. This
destructive scurf robs the hair of its
lustre, its strength and its very life,
and if not overcome it produces a fev-
erishness and itching of the scalp; the
hair roots flunish, loosen and die; then
the hair falls out fast.
If your hair has been neglected and
is thin, faded, dry, scraggy or too oily,
get a 25 cent bottle of Knowlton's
Danderuff at any drug store or toilet
counter, apply a little as directed and
ten minutes after you will say this was
the best investment you ever made.
We sincerely believe, regardless of
everything else advertised, that if you
desire soft, lustrous, beautiful hair and
lots of it no dandruff no itching
scalp and no more falling hair—you
must use Knowlton's Danderuff. If
eventually why not now?

"CASCARETS" ALWAYS STRAIGHTEN YOU UP

To-night! Clean your bowels and end
Headaches, Colds, Sour Stomach.

Get a 10-cent box now.
You men and women who can't get
feeling right who have headache,
clogged tongue, foul taste and foul
breath, dizziness, can't sleep, are bilious,
nervous and upset, bothered with a
sick, gassy, disordered stomach, or
have backache and feel worn out.
You are keeping your bowels clean
with Cascarets, or merely forcing a
passage every few days with salts,
cathartic pills or castor oil?
Cascarets work while you sleep;
cleanse the stomach, remove the sour,
indigestible, fermenting food and gas;
take the excess bile from the
liver and carry out of the system all
the constipated waste matter and po-
ison in the bowels.
A Cascaret to-night will straighten
you out by morning—a 10-cent box
from any drug store will keep your
stomach sweet, liver and bowels regu-
lar, and head clear for months. Don't
forget the children. They love Cas-
carets because they taste good—never
gripes or sicken.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If cross, feverish, constipated, give
"California Syrup of Figs."

Don't scold your fretful, peevish
child. See if tongue is coated; this is
a sure sign its little stomach, liver and
bowels are clogged with your waste.
When listless, pale, feverish, full of
cold, breath bad, throat sore, doesn't
eat, sleep or act naturally, has stom-
achache, indigestion, diarrhoea, give a
teaspoonful of "California Syrup of
Figs" and in a few hours all the foul
waste, the sour bile and fermenting
food passes out of the bowels and you
have a well and playful child again.
Children love this harmless "fruit lax-
ative," and mothers can rest easy after
giving it, because it never fails to
make their little "tummies" clean and
sweet.
Keep it handy, Mother! A little given
today saves a sick child tomorrow, but
get the genuine. Ask your druggist for
a 50-cent bottle of "California Syrup of
Figs," which has directions for
babies, children of all ages and for
grown-ups plainly on the bottle. Re-
member there are counterfeits sold
here, so surely look and see that yours
is made by the "California Fig Syrup
Company." Hand back with contempt
any other fig syrup.

Apply Sloan's Freely For Lumbago.

Your attacks of Lumbago are not
nearly so hopeless as they seem. You
can relieve them almost instantly by a
simple application of Sloan's Liniment
on the back and loins. Lumbago is a
form of rheumatism, and yields per-
fectly to Sloan's, which penetrates
quickly all in through the sore, tender
muscles, limbers up the back and
makes it feel fine. Get a bottle of
Sloan's Liniment for 25 cents of any
druggist and have it in the house—
against colds, sore and swollen joints,
rheumatism, neuralgia, sciatica and
like ailments. Your money back if not
satisfied, but it does give almost in-
stant relief.

SAYS ITCHING ECZEMA IS DRIED RIGHT UP WITH BOLD SULPHUR

Use like cold cream to subdue irrita-
tion and clear the skin.

Constant or intermittent irritation
producing itching and red, angry Ec-
zema patches on the skin is readily re-
lieved with bold-sulphur cream. The
moment it is applied the itching stops
and the healing begins, says a noted
dermatologist.
It effects such prompt relief, even in
aggravated Eczema that it is a never-
ending source of amazement to physi-
cians.
For many years bold-sulphur cream
has occupied a secure position in the
treatment of cutaneous eruptions by
reason of its cooling, parasite-destroy-
ing properties. It is not only para-
siticide but also antipruritic and anti-
septic and nothing has ever been found
to take its place in overcoming irri-
table and inflammatory affections of
the skin. While not always establishing a
permanent cure, yet in every instance
it instantly stops the agonizing itching,
subdues the irritation and heals the
inflamed raw skin right up and it is
often years later before any Eczema
eruption again appears.
Those troubled should get from any
pharmacist an ounce of bold-sulphur
cream and apply it directly upon the
affected skin like you would any ordi-
nary cold cream. It isn't unpleasant
and the prompt relief afforded is very
welcome, particularly when the Eczema
is accompanied with itching.

REPORT OF CONVENTION AT ADELIN SEPT. 19, 1914.

The Fallsburg and Bear Creek Sun-
day School Convention was held at
Tyree church Saturday, Sept. 19th.
The day was fine, rather warm, atten-
dance was large, the general behavior
was good, attention splendid, and a
number of speakers from Louisa and
Catlettsburg were present.
W. J. Vaughan, our State worker,
gave us two very inspiring talks. Miss
Lillian Eastham gave us a nice talk
on her trip to Zurich, where the last
World's Sunday School Convention
was held. We had many other beau-
tiful talks that were real good.
The dinner was simply extra good
both in quantity and quality. There
was probably nearly one-half of the
victuals that had to be carried home.
The singing which was conducted by
Prof. Mathias Rice, assisted by our
organist Mrs. Joe Rice, with a fine
organized choir, was certainly well
enjoyed.
A few old mugs were dropped in
during the day that were much ap-
preciated. The collection for the benefit
of our Sunday Schools in the state at
large was \$12.13, which we consider
good.
In conclusion we are free to say the
convention was a great success in ev-
ery way. We think it was the best we
ever had in Fallsburg and Bear Creek
district. The great truth is the Sun-
day School interest is growing year by
year in the district. The people who
came by railroad were carried out and
back. J. F. H.

ery Sunday. ENRIQUE.

ASTHMA AND HAY FEVER A GUARANTEED TREATMENT

"I have arranged with the Louisa
Drug Store Co. so that every sufferer
from Asthma, Hay Fever or Bronchitis
Asthma in Louisa can try my treat-
ment entirely at my risk." Dr. Rudolph
Schiffmann announces. He says: "Buy
a 50-cent package of my Asthmador,
try it, and if it does not afford you
immediate relief, or if you do not find
it the best remedy you have ever used,
take it back to the Louisa Drug Store
Co. and they will return your money,
cheerfully and without any question
whatever. After seeing the grateful
relief it has afforded in hundreds of
cases, which had been considered in-
curable, and which had been given up
in despair, I know what it will do. I
am so sure that it will do the same
with others that I am not afraid to
guarantee it will relieve instantaneously.
The druggists handling Asthmador
will return your money if you say so.
You are to be the sole judge and un-
der this positive guarantee absolutely
no risk is run in buying Asthmador."
Persons living elsewhere will be sup-
plied under the same guarantee by
the local druggist or direct by Dr. R.
Schiffmann, St. Paul, Minn.

FRANCES ANN YOUNG.

This old and respected citizen has
crossed the bar. She was born Nov.
11, 1849 in Scott county, Virginia, and
came to Lawrence county, Ky., when
only 13 years old. Her maiden name
was Turner, being related to Dr. Tur-
ner, of Paintsville. Married Allen
Young, and to them were given four
children—Wm. and Henry, of this city,
and H. B. Young, of Toledo, O., who
arrived here on the N. & W. train in
time to accompany the body to the old
home place on Brushy Fork of Blaine
creek. She joined the Methodist
Church at the age of twenty-five, and
has been a true Christian since that
time, having been on the bed of affliction
for the past 38 years, by a sudden
failure of the nervous system combined
with heart trouble. She bore her sick-
period with fortitude and did not com-
plain. Her children have been kind
and loving to her all this time, first
one and then the other keeping her in
their home. All who knew her loved
the kindness of her heart.
She passed over the river of death
on October 4, 1914, at her son, Henry
S. Young's, in Louisa. Although sick
so long, they miss her presence much
and mourn for her company.

On Sunday last Mrs. S. E. Reynolds, of this city, was induced to get into a buggy and be driven to Fort Gay. She is an invalid, walking with much difficulty, and is much afraid of horses. It is probably fifteen or more years since Mrs. Reynolds has left her home. On this occasion she spent a couple of hours with a son by a former marriage, Anson Graves, who has been sick a long time.

DEATH OF MRS. A. LEE BARRETT.

News has been received here that Mrs. Barrett, wife of the Rev. A. Lee Barrett, died recently at her home in Cumberland, Md. Mrs. Barrett, before marriage, was Miss Alice Peirce, of Catlettsburg. She was a sister of Henderson Pennington and, like her brother, was an accomplished musician. Her husband was for several years a member of the Western Virginia Conference of the M. E. Church. She was 60 years old.

ADDRESSED MEETING.

County School Supt. J. G. Rucker, C. L. Williams, George Calvin, Misses Garnett Paulkner and Nora Conley, who were in the county school building Saturday to attend a meeting held by the county school teachers. Misses Paulkner and Conley gave very instructive addresses to the assembly, dwelling on the correct basis of teaching. The party returned late in the afternoon much entertained with their trip and the hospitality of the hotel county people in that vicinity. Catlettsburg item Ashland Independent.

SATURDAY IS PREMIUM DAY.

All persons to whom premiums were awarded by the judges of the recent fair are requested and are expected to be in this city on Saturday, October 10. The prizes are ready and will be given to the winners at that time. As many as possible of those who were so fortunate as to win a ribbon, red, white or blue, should be here and thus lighten the labors of the officers of the Association.

KIT CARSON'S 3-RING

WILD WEST CIRCUS.

A Few Facts About the Peer of All Amusement Enterprises.

On Saturday, October 10, Kit Carson's Big 3-Ring Wild West Circus will exhibit at Louisa afternoon and night. This is the largest amusement enterprise of its character in the world. Solid trains of their own double-length cars are required for the transportation of this colossal attraction. Never before have so many features been combined under one management. The Aeroplane for instance is but one of the strange sights to be seen with this exhibition. Not a model but a Curtiss-Farnum Aeroplane, furnished by the Chicago Aeroplane Manufacturing Co., and guaranteed to give flights daily. It will circle the city and alight at the show grounds for the public's inspection.

A Menagerie of trained wild animals is also an innovation with a wild west show. Elephants, Camels, Buffalo and on down to the smaller species of hippos and quadrupeds. A two mile street racetrack glittering with gold and silver, will delight the eye and the exquisite music of the three big bands will please the lovers of harmony.

Come! as we do from the largest ranch in the world, we carry nothing but the very best of riders and ropers and guarantee to ride any horse or mule free of charge if brought to the show grounds and offer a reward if we fail. The Cossacks with the show were selected from the Czar's cavalry in Russia and are without doubt the finest heremen in the world. Then there are the Rough Riders from the plains of South America, Vaqueros from Old Mexico, champion lady riders of the world, imported European Novelty acts of every description, bands of Sioux, Cheyenne and Comanche Indians with their picturesque squaws and puposes. A dozen cement clowns in fun and foolishness. In fact two hours will be required to present the program and you will leave the show grounds a true friend and earnest advocate of Kit Carson's Big Three-Ring Buffalo Ranch Wild West Circus. But don't forget the date. Two performances only on Saturday, October 10, at Louisa.

Mr. and Mrs. Thomas Chaffin, of Perris, California, are visiting relatives here. They were formerly residents of this county.

Miss Emma Hucks and mother, of Ashland, and Mrs. Hertha Stumper and two children, of Frankfort, have been visiting Mrs. N. C. Day.

Mr. and Mrs. Jahraus, of Portsmouth, passed several days in this city recently. From Louisa they went to points on the upper Sandy.

The Rev. W. H. Davenport, former pastor of the M. E. Church at this place, was here last week. He is pastor of a Covington church.

Mrs. Paul Gault and son, Charles Allen, have returned to their home at Holden, W. Va., after a visit of several weeks to Wm. Reinmle and family.

Mr. and Mrs. Leonard Lester returned to their home at Tuscola Saturday, accompanied by their mother, Mrs. Lindsey Lester, who visited there several days.

John Burgess and son, of Wayne county, Ben Snyder, from the old Snyder homestead, and Cal Snyder, of Ironton, were guests of Augustus Snyder last week.

Mrs. J. E. Thompson and two sons, Earl and Kermit, and daughter, Eunice, returned Saturday evening to their home near Tuscola, after spending a few days in Louisa.

Mrs. Anna Kise returned Friday to her home at Kise after a visit in Indiana. Her son, A. A. Kise, who lives in Riley, Ind., came home with her and remained a few days.

Mrs. Chas. York and little son left Wednesday for Paintsville to visit her parents, Judge and Mrs. A. J. Kirk, and attend the Johnson county fair, which is being held there.

Mrs. A. C. McHure left Monday morning on the N. & W. for her home in Terre Haute, Ind. She was accompanied by her mother, Mrs. T. J. Snyder, who will go to Oklahoma City, Okla., to spend some time with her son, Henry G. Snyder.

FOR COUNTY AGENT.

The NEWS has information from Dr. Mutchler, of the State Agricultural Extension, that he has secured the sum of \$800 from the United States Department of Agriculture, to be used in paying for the services of a County Agent another year. It is hoped that the Fiscal Court will recognize the value of a County Agent for Lawrence and make the necessary appropriation to secure his services.

WELSH RAREBIT.

Mr. and Mrs. E. K. Spencer were hosts on Tuesday evening at a Welsh rarebit party in honor of the out-of-town visitor, Mr. Edwin L. Franken, of Cincinnati. Others present were: Misses Shirley Burns, Opal Spencer, Julia Snyder, Eva Wellman; Messrs. G. R. Burgess, H. G. Wellman, George Adams and Ed Wellman.

NOTICE!

All persons owing us for merchandise on account are hereby requested to settle same promptly on or before November 1, 1914. After that date we will sell for cash and produce only. All systems of accounts have proven burdensome and profitless. We sincerely thank those friends and customers who have always paid us promptly and will have a cash proposition that should appeal to all. M. F. SWETNAM & SON, Wilbur, Ky. (f-10-30)

TO WHOM IT MAY CONCERN:

In accordance with the laws of this state now in full force, I will sell at public sale to the highest and best bidder thereof as to recover the tax cost and penalties now due the state of Kentucky and county of Lawrence by parties hereinafter mentioned.

A sale will take place at the door of the Lawrence county court house at Louisa, Ky., at 2:30 p. m. on the 20th day of October, 1914, and upon receipt of the purchase money from the highest and best bidder a deed with fee simple title will be executed by the State and County, AND NOT ANY OF SAID PROPERTY WILL BE SUBJECT TO REDEMPTION THEREAFTER.

Any parties desiring a final opportunity to redeem any of said property in which they might be interested, can do so by seeing me at the Lawrence county Judge's office on the morning of October 20th, 1914.

Very respectfully yours,

IF MEALS HIT BACK AND STOMACH SOURS

"Pape's Diapiesin" ends stomach misery. Indigestion in 5 minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent boxes of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless, tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat, besides, it makes you go to the table with a healthy appetite, but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gas, heartburn, sourness, dyspepsia, or any stomach misery, feel some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.

THE FARM GIRL.

It would be uncharitable and discouraging to say the farm girl is next in importance to the farm boy. It is true she is more tractable and not so apt to be led away from the farm to city life as the boy, but she is one of the most important beings on the farm, for she is not apt to be the wife of a farmer and the mother of farmers. There is no higher calling on earth for the girls properly brought up in the country.

But what do we mean by being properly fitted? In the first place, they are ladies and should have every qualification to stand with the best ladies of the land, for they are the best the earth can produce. Their schooling should not be only "reading and writing and arithmetic," but should embrace all the finer qualities of study, especially botany, chemistry, philosophy, English literature, domestic science and agriculture. The country girl may some day have to teach as a vocation, and as agriculture is coming into all of our rural schools, the teacher should be an agriculturist. Many girls are taking this as a special course at college.

She should be endowed with the realization of independence and taught to have initiative in all lines.

Even if a girl in the country does not have to teach, she should not be a drudge in any sense, because there are so many vocations for women now that she can choose a life for herself. She should be taught to be as independent as a boy.

Some of the most successful farmers today are women, and for this reason a girl should study the management of farms and animals, and rotation of crops, and herein comes the qualities of chemistry. Girls learn to analyze and reason and make deductions. Men will go into details and follow them out carefully.

As the farmer of the future will depend more and more on headwork, the farm girl with proper training will grasp the reasoning of things and get results. She should learn to keep books, beginning with poultry, butter and fruits, and becoming a salesman as well as a producer. Beginning in the vegetable and flower gardens and poultry yards, her study should extend to the dairy and barnyard, the lawn and then to the fields, devoting much time to selection of seeds. She should be consulted about all farm crops, preparation of land, fertilizers and methods of seeding, cultivation and harvesting.

A farm girl should not only know how to grow poultry and vegetables, milk a cow and make butter, but harness a team for pleasure and work and drive the team to a wagon, a plow, a disk, harrow, sower, mowing machine and hay rake. There is no lack of the girl becoming a housewife, she needs how to do these things, she will later be fitted to direct all farm affairs. After a while she will drive about her farm in her runabout or automobile.

The farm girl should be an active member of all community organizations and able to take her part in their discussions, whether of the farm, school, home, good roads or social life. Kentucky Farming.

SIGHT CURES THE BLIND.

Now let me sight you to the fact that I have a treatment that will positively cure Catarrah. Following is a testimonial that ought to convince you.

Dear Sir: I had the Catarrah six years and used two \$15.00 treatments, but they only relieved me temporarily. I learned of your remedy and I cured myself in a small supply and I cured myself and well. It was in the year of 1908 and at this present writing I stand ready to make oath that I have the Catarrah of the Name and I have now I do not know it. Your remedy certainly must destroy every germ.

INDIAN POETRY.

Dear Editor: I send you herewith two pieces of Indian poetry.
In my last letter about Indians and trip out to Denver, I said Kit Carson was 150 miles from Denver. It was printed 15 miles. We traveled with French Pete 150 miles and up a stream called Big Sandy in Colorado, and it sure was 100 Sandy, as the water flowed under the sand and we got water for stock and for drinking and cooking digging short distances in the sand.

When I was in Louisa in 1878 I saw Asa Galey at the hotel and asked him how he liked Kansas. He said he didn't like it because they lived principally on "hop yeast light bread and potatoes." My wife baked hop yeast light bread and I really like it now I've got used to it. J. W. HAYES.

(As the U. S. Senatorial race appears to "Hayes" Indian poetry):

"Paint It Face and Raise War Whoop for Hayes."

(By War How Blanket Indian).

War how no have Gore heap less, But much heap Hayes more. No like to cause blind man distress, No want to knock on Gore.

Just wait to make it wisest choice, Let our best man we can have. We'll do most work heap less use you.

Frame laws to make hearts glad.

Have heard how "Gore" to bust it trust With eloquence galore, But every wrong heap much distress.

By blind man, Mr. Gore.

But heap fire talk, big best, no bust. Let our best man we can have. So, War How thinks the voters must Let our best man, Mr. Hayes.

Sure stuck on Hayes like "tin line, Believe he'll push heap strong, All time chap wood, close up to line, An never yield to wrong.

No hear bad tales "Gore" younger days, His ideas high like steeples.

He understands "farm" farmers ways, His heart is with the people.

So War How put it point on face, An heap loud war whoop raise, Take many scapes at your place To help best chief, John Hayes.

(S. Judge Hayes, formerly of the Supreme Court, a good man, but Hayes was against Judge Hayes and I suppose I'll have to be called by War How Blanket Indian. But then, I've a friend in John "Yaller Cat" as I was on a war path with him an heap out much for Gore. We're elected blind man T. P. Gore. J. W. H.)

"On It War Path, Heap Much Out for Gore."

(By John Yaller Cat).

Heap many things a-sneakin' A champion to fight, Heap many things this world has That some one should set right, Wrongs which diminish dollars Can wipe clean off the score. Our champion fights corruption, hence Me heap much out for Gore.

Extraneous goes a-sneakin' Through Congress halls in state, A-sneakin' hard earned dollars In appropriations great. A billion an hour a quarter Yaller Cat help fight shore. Gainst heap big fool Extravagance, Me heap much out for Gore.

Capitol keep a-krindin' Till labor can't endure, While rich folks shift the burden of taxation on the poor. Bankers grind out usury "Farm Credits" make 'em sore. Our champion gives it to 'em hard, Me heap much out for Gore.

We need 'em heap brave warriors To fight "Gore" crimes an' lusts, To scalp him & Alcohol, Monopolies an' trusts. Our champion heap sure fight 'em, These wrongs he'll make more, Me on it warpath him and Me heap out much for Gore.

Tears vs. War.

The women of Europe in these troublous times of war must be well armed if the poet's ideas are correct. What is a woman's weapon? has been asked and answered in various ways. A quarter of a century ago, perhaps, there went the newspaper rounds an exquisite little tripartite of stanzas each bearing an answer to the question, and below is the way it went:

A Woman's Weapon.

"What is a woman's weapon?"
I asked a charming girl.
She dropped her lashes shyly
And stroked a vagrant curl;
Then consciously she murmured
This rosebud newly cut:
"I have a strong suspicion
Her weapon is a point."

"What is a woman's weapon?"
I asked a lover true.
He turned him to madden
With eyes of heavenly blue.
Her violet lips were parted,
All innocent of guile,
And he eagerly answered,
"Her weapon is a smile."

"What is a woman's weapon?"
I asked a poet then.
With sudden inspiration
He added upon his pen.
"Oh, I could name a thousand."
He cried with earnest cheer,
"But a woman's secret weapon
I know you, is a tear."

Then, if tears are being shed from the weeping eyes and wounded hearts of troubled women of these countries in proportion to the blood that flows from the gaping veins of the fallen soldiers, surely peace white wings must soon surely come, with her mission of love and mercy.

"Oh, peace! thou source and soul of social life
Beneath whose calm, inspiring influence
Science, his view widens, Art refines,
And swelling Commerce opens all her ports,
Most be the most divine who gave us thee."

Health is the source of beauty, and every rule for beauty is simply a rule for health. A girl cannot have a firm, elastic body, a clear skin, a fine color and bright eyes unless she exercises, sleeps and eats properly and so forth. All these outward charms appeal to the eye, but how much deeper and more lasting is the impression when there is beauty of character as well. It is not strange how persons

who seem plain and unattractive to the casual eye, soon often, become absolutely beautiful to us in their revelation of character? And how some whom we consider beautiful at first, when better known, seem only ugly and unattractive, because of some defect of character. Character will out. We may try to hide our defects, but it is useless. We may deceive for a time, but for long we are known and valued for what we really are in spite of all our efforts and pretense.

Living for self with no object but to follow the bent of the inclination, never yet made a woman healthy, happy or beloved. She mostly turns out to be fretful, nervous and uncomfortable to live with, and not much sought after by anyone. A woman who lives for self alone should never marry. Men take to her ways if their dinners are not good. It is not sound reasoning, to be sure, for him to think he is entitled to do wrong because his wife does, but it is a sort that is much used, and one can readily see how discouraging it must be for a man to see his earnings squandered by his wife in her games and combings, her dressing and adornments, while she seems to have no thought of his needs, and no willingness to attend to them.

Her Secret.

We occasionally meet a woman whose age is as beautiful as the bloom of youth. We wonder how it has come about—what her secret is.
Here are a few of the reasons:
She knew how to forget disagreeable things.
She kept her nerves well in hand and untroubled them on no one.
She mastered the art of saving pleasant things.
She did not expect too much from her friends.
She made whatever work came to her congenial.
She retained her illusions and did not believe all the world wicked and unkind.

She relieved the miserable and sympathized with the sorrowful.
She never forgot that kind words and a smile cost nothing, but are priceless treasures to the discouraged.
She did not do others as she would be done by.
She never missed an opportunity to tell her friends and neighbors that the Home Circle Department alone is worth many times the subscription price.

The ideal life for a woman, and for a man no less, is the closest supreme love for one, true and tender affection for many, and kindly, active good will to all.

REAL ESTATE FOR SALE.

I am the man that sells the earth. I am the man that helps locate men who are unable to find what they want. Tell me what you want and how much you want to pay for it, and I will see you get terms and prices to suit you. Now is the time to look while the growing crop is on. You can see what the land will produce. Don't wait away till winter and say "I would buy if I knew the land was good." The corn crop, the wheat, grain, vegetables, orchards and markets open daily will recommend itself.

IMPORTANT TO ALL WOMEN READERS OF THIS PAPER.

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.
Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition.
Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women.
Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one dollar size bottles at all drug stores.

HEN ATTACKS CHILD.

Mr. Sterling, Ky., Oct. 2.—Jack, the 3-year-old son of J. C. Peters, was seriously injured at his home by a hen flying into his face, scratching him, the sharp claws piercing the forehead and running through the eyelids, making gashes the length of the child's face. It was at first thought that the sight was destroyed, but this will be saved.

ENTERTAINED.

Rev. John Martin, of Cottage Grove, Huntington, assisted by his daughter, Miss America, entertained the Board of Stewards of the above church and Pastors of the churches on Friday evening, Sept. 25. This was a most delightful occasion and greatly enjoyed by those participating. Brother Martin is universally beloved by all his people.—Central Methodist Advocate.

PREPARE FOR FOODSTUFFS NOW.

Urgent Plea From An Expert Interested in the Farmers.

J. H. Stewart, agricultural agent the Baltimore & Ohio Railroad Co., Morgantown, W. Va., writes to the Manufacturers Record:

"Twenty years ago the farms of Kansas were practically all under mortgage, they were spoken of as a lost cause and the State was spoken of as a land of grasshoppers, drouths and typhoons. William Allen White, then editor of a paper in that State, about that time wrote an editorial headed 'What's the Matter with Kansas?' and the influence of that editorial probably more than anything else aroused the people of that State to its agricultural possibilities so much that in less than a quarter of a century the State has become enormously rich and is among the foremost leaders in the production of wealth and food products from their soils. This year Kansas produced one-sixth of all the wheat of the United States.

"Already the food products to our people have been advanced very considerably as a result of the anticipated increased demands in the great world's war zone. All the indications seem to be that this war will be much prolonged and even more disastrous than many now think. In any event, taking the most hopeful view of it, the harvesting and marketing of food crops in that region has already been enormously neglected and damaged and for the coming year we may rest assured that the production of foods will be greatly diminished, and so far as we know, this may be true of the succeeding year. Therefore, it devolves upon that part of the world which is not directly involved in these wars to make strenuous efforts to supply this greatly increased demand. But recently we have read over and over of the exportation of gold from this country in great quantities, which has called for extraordinary legislation and intervention by our Government to maintain the stability of finances in the United States. It seems to me that here is an opportunity to impress upon the landowners and farmers of the United States the duty which will fall upon them to supply foods for the markets of the world and to direct their attention to the great opportunity which they have, first, to supply these markets and, second, to demonstrate to ourselves our ability to produce more food than we have ever done.

It goes without saying that an increase of 10 or 15 per cent. of every sort of food which we produce can be made without going beyond what is reasonable and practicable. The aggregate of this increase would amount to almost or quite \$1,000,000,000, and should still higher prices prevail even more than that. If this is done it will greatly increase the balance of trade for the United States, bringing back to this country many millions of gold, the beneficial influence of which can hardly be foretold. In addition to this, if our people are incited to greater production it will have a strong tendency to hold down exaggerated prices to our own people for their food necessities, which will in no way work an injury to the farmer, since the speculative increases usually do not reach him.

"Taking the States traversed by the Baltimore & Ohio Railroad system, we find that they produce one-third of all the corn in the Union; one-third of the wheat; one-third of the buckwheat; one-third of the hay; about one-third of the fruits and about 80 per cent. of the apples for the whole country. If this matter is pressed upon the attention of all the farmers and organizations in the way of preparing to meet the great demand for foods throughout the world which I have mentioned, there is yet time to sow a large increase of wheat and winter oat acreage. Additional corn land can be sown in wheat in the corn belt to bring a 15 per cent. increase without materially interfering with other crops, and if fall plowing and winter plowing are set about actively and abundant good seed corn and seed potatoes are laid by for the coming spring, it will be easy for the States traversed by the Baltimore & Ohio system to increase the actual wealth of the country at least one-third of a billion dollars in the way suggested.

"We learn from the papers that it has been proposed by the Canadian Government that 1,000,000 acres more of the food grains be sown this year, and from this press it appears that active steps are being taken in co-operation between the Government and its people to bring about this great result, but even if this is done, the increased production will be a bagatelle to the increased demand. And what is true of the soil crops is true of the fisheries of our country, which will find an unusual demand for all their products. There should be an enormous increase of canned products, sweet potatoes, beans, corn, tomatoes and fruits, for which there will be a great demand."—Manufacturers Record.

Notice of Commissioner's Sale.

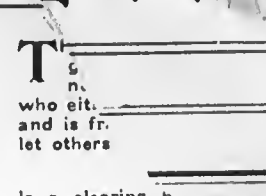

By virtue of a judgment of the Lawrence Circuit Court, August term 1914, in case of Mary B. Horton, Plaintiff, vs. John G. Burns, et al., defendants, undersigned Commissioner will, on Monday, the 19th day of October, 1914, at the front door of the court house in Louisa, Ky., at about 1 o'clock p. m., offer for sale to the highest bidder the following described property, or so much thereof or such interest therein as may be necessary to produce the sum of \$2351.03 and the costs of said action, said property described as follows:

Tract of land situated on Lick Creek, Lawrence county, Ky., bounded on the north by the lands of R. F. Vinson's heirs, on the south by lands of J. B. Clayton, on the east by lands of Jay H. Northup and Sebastian, and William and Hertha Layne, on the west by lands of Sarah Adkins and W. H. Clayton containing 80 or 90 acres.

Sale will be made on a credit of six and twelve months in equal installments, bond required with good personal security bearing interest at 6 per cent per annum, and having the force of a replevin bond, with a lien retained on the property sold to secure the payment of same.

of rich, rolling land in Scioto county, Ohio, one of the richest counties in the State, has made it possible for you to be a farm owner, at one-half cost per acre of any other like property in West Virginia, Ohio or Kentucky.

HOW OUR LANDS ARE DIVIDED.

For five months we have had engineers dividing up our 7,000 acres of land. Our tract comprising approximately 1,000 acres—a very fine stock farm—and the balance is cut into tracts of as near 40 acres each as possible.

SOME OF THE MANY ADVANTAGES IN THIS NEIGHBORHOOD.

Good Neighbors:—Every farm surrounding the property is highly improved, with good homes and barns, and the owners are kind, courteous, and neighborly.

Good Schools:—No child under the law is required to walk over 1½ miles. If school is further away the School Board must provide teams to haul the children to school.

Good Churches:—Of different denominations, located not farther than two miles from any part of our property.

Fine Roads:—Well macadamized and on good grades. Fourteen miles from Bloom Switch to the paved streets of Portsmouth, O., over a fine state pike.

Two Railroads:—Baltimore & Ohio Railway and Detroit, Toledo & Ironville Railway run through the property. No farms further than 2 miles from a railway station.

Brick, Coal and Limestone:—Brick yards, coal and limestone operations adjoining this property offer you employment close home during the idle farm season. Ask about the coal and limestone on this property.

Grasses:—The soil is impregnated with lime and grass takes naturally, especially blue grass.

Commercial Creamery:—You can sell all of your milk to the Oak Hill Creamery every morning provided you deliver it at the railway station, and you will get your check every two weeks.

Fruit Raising:—The Horticultural Department of the Agricultural College of the State of Ohio asserts that Scioto and Lawrence counties are the two best adapted counties in the state for apple raising. Ohio is the home of the Home Industry Apple.

FOR SALE, ONE HUNDRED GOOD FARMS IN OHIO.

Good roads, good soil, good markets, good schools, good churches, no negroes, and on and near the new C. & O. railroad that is to be built through here in the next two years. The survey runs over a number of the farms, and prices will go up and double in the next two years. Now if you want to buy and are ready to buy come at once. I have the goods and can suit any man. I have a number of fine stock farms for sale from 150 acres to 300 acres, priced from \$6,000 to \$12,500, well improved and well watered. So many people have fooled me lately; I drove to the station August 25 through the rain to meet a man from West Virginia and he never came. I meet the trains rain or shine. Then some have come as sightseers. I want buyers and men that mean business. The titles to these farms are genuine and there are some of the best investments in hand here ever offered. I have been dealing in land for ten years and I should be able to know a deal by this time when I see it. Write me and describe what you want and what you want to pay for it; then when you say meet me, be sure and come for I will be there. I live 7 miles from the station and will meet the train you say you will be on. Always come on No. 15 on the N. & W. Ry. That gives us more time. Agents wanted in Johnson, Pike, Floyd and Martin counties, also in Boyd county. Will pay any man in these counties one-third of the commission on any farm he may send me a buyer for. Always write me three days before you start, so I can meet you.

LEITCHER COUNTY AND WHITESBURG.

What is Happening in this Rich Coal Territory of Kentucky.

Whitesburg, Ky., Oct. 6.—The town of Whitesburg keeps on the forward march and is rapidly becoming the best town on the entire upper extension of the Lexington & Eastern railroad just now three of the best business blocks this side of Winchester, including the First National bank building, the First Fields block and the D. D. Fields building, near completion. The new bank will be moved into their building this week. The building cost \$25,000 to \$35,000 each. Work is under way on street improvement and a move is being made to modernize Main street its entire distance. Work has been resumed on the Baptist Church building near the L. & E. depot in East End, which will cost \$15,000 which is being built to begin soon on the new bank and graded school building in East End. The building will cost about \$30,000 when completed. The county has made arrangements for the building of an armory to cost \$3,000 in East End which is to be used by the Whitesburg Company National Guard. Already the land has been purchased upon which the armory is to be built, and arrangements made for the starting of the building. J. H. Frazier is unloading material with which to build an addition to his store on Main street, while on West avenue S. T. Frazier is making work on the theater. Whitesburg's play house since the discovery of the rich flow of natural gas on the Kelley Fields lot in Bentley addition many people believe that Whitesburg is surrounded by a rich gas field, the richest in the country, and with vast coal and timber fields surrounding the town is bound to grow. Already her population has even more than doubled, and with continued push and progress on the part of her people it will become one of the best towns in Eastern Kentucky.

It is said here today that two trains, a coal train and a local freight, came together near Neon, about here, on the L. & E. and crashed both engines, injuring a number of the train men, including George O. C. Bremen, who leaped from the train, some of a considerable embankment. He was so badly injured that he was sent to Lexington for treatment in a hospital. Traffic was delayed for some time. The wreck was not a serious one, and the coming together of the two trains.

Another wreck occurred down at Type, in Perry county, making the fifth week within the past ten days. As a result of the wreck all passengers, baggage and express is being transferred. A number of coal cars were derailed into the Kentucky river, and the track torn up a considerable distance.

A number of new coal operations are being started up down at Viper, in the upper edge of Perry county, among them being the Kentucky Penn Coal Co., and the Viper Coal & Lumber Co., both of which will soon be ready to begin the shipping of coal. Both are on the main line of the L. & E. Viper is said to be surrounded by a splendid coal field, now attracting considerable attention.

Dr. Shirley's demonstration in his hookworm investigation at Mayking revealed some alarming conditions. Out of the 112 patients he examined 82 had hookworm about 90 per cent. The investigation lasted three days there. He began his investigation here yesterday. The Misses Ruby Jones and Virginia Allen, of Bowling Green, are assisting him in conducting the clinics. There is much interest manifest and the investigations will be made in every section of the county.

Ex-Gov. Willson, Congressman John W. Langley and others are killed to speak at a number of different places in Leitcher county this week, including Meltdor and Jenkins. Politics are said to be warming up quite a bit in Leitcher county. A number of Democratic speakers will be here also this week.

Reports from the bedside of little L. L. Jenkins, the 12-year-old son of Marshall W. W. Jenkins, say that he is not expected to survive but few hours longer. The boy fell from a big locust tree near the Jenkins home a few days ago, a distance of about 30 feet, receiving what were only thought to be slight injuries at the beginning.

Whitesburg, Ky., Oct. 7.—A deplorable tragedy took place on Lower Rockhouse creek, in this county, yesterday when Davis Smith, the 18-year-old son of James Smith was killed in a saw mill—his body cut in two.

Young Smith was working on the saw mill when a flying split struck him, knocking him against the rapidly moving saw. His body was rapidly mangled. The same split also struck his father afterward and seriously injured him. The terrible accident is deeply deplorable.

It is said that part of the young man's liver was picked up nearly 30 yards away.

Near about in this county, the three-year-old son of James Combs, a farmer, was so badly scalded that the child died within a few hours. The mother was scolding the boy and had taken out a bucket of hot water, and while in another part of the house the little three-year-old boy had slipped into the hot water, receiving such burns as to cause his death within a short time. The parents are almost grief stricken.

L. L. Jenkins, the 14-year-old son of Town Marshall Wiley W. Jenkins, of this city, who fell from a locust tree near his home a week ago, a distance of nearly thirty feet, died from the injuries early yesterday morning. The boy's death is widely mourned. He leaves many relatives, among them being Supt. George W. Jenkins, who is an uncle of the boy. The interment took place at mouth of Thornton today.

Ann Miller Combs, aged about 70, wife of George Combs of Rockhouse creek died there after a brief illness of a complication of diseases. Mrs. Combs was one of the best known and best loved women in the county. She leaves a number of grown children, including Circuit Clerk Stephen Combs of this city.

LAND WILL GO HIGHER.

"There is not an acre of land in Kentucky that won't double in value in the next five years, due mostly to the European war," was the highly optimistic remark of Dr. Fred Mutchler, State agent of farm demonstration work, to a group of men at the Board of Trade rooms. In Dr. Mutchler's opinion the European conflagration has given the American farmer the grandest opportunity of his life. He says that the farmers of the United States will be called upon to feed the world for the next three years, and the thing is one who realize and grasp this great opportunity are going to gather in the benefits. "I have a 25-acre farm in Warren county, on which I expect to make \$25,000 in the next three years," he says. "I am going to make it off live stock. There is no money in cropping; you have to feed it to get all out of the land that is possible."

Dr. Mutchler is a great advocate of raising live stock, and with County Agent Kilpatrick is endeavoring to make the farmers of Mcracken see the possibilities in it.—Danahy News-Democrat.

Hearing is the result, and inflammation can be taken out of the tube by using a remedy which will destroy the inflammation. Hearing will be restored, and the deafness cured. BAIL REFUSED.

In the preliminary hearing of the case of George Barton and Harrison Belcher, charged with the murder of their cousin, John Belcher, at Shelby Gap, last July, the Circuit Court refused to grant bail which was requested on motion by their counsel last Saturday. The boys were remanded to jail to await the final hearing of their case at the February term of court. It is said the Commonwealth will seek to place the responsibility for the shooting on George Belcher, a dummy, and it will also attempt to prove that the dummy and his two brothers were intoxicated when they attacked the victim, who was at work near the C. C. Greer store. The trouble came up over a quarrel that occurred the day before.

DAIRY FOR PIKEVILLE.

James Hatcher returned last Sunday from a trip of several days to the country, where he has been looking after his extensive land interests. Mr. Hatcher has decided to establish a dairy in connection with his cold storage plant to supply the city with milk and milk products beginning with next summer. Mr. Hatcher originally planned to operate a dairy only for hotel and cold storage plant, which is also an ice cream factory, but believing that by the aid of storage a dairy on a larger scale would be successful, he has decided on the general delivery plan. It will be put in operation next summer. Mr. Hatcher has already purchased a small supply of bottles for experiment purposes.

WAR VETERAN DIES.

Harry Sward, aged 78, a Union veteran of the Civil War, died at the home of his daughter, Mrs. J. M. Staton, in West Pikeville, last Thursday morning from the effects of age combined with pneumonia.

Mr. Sward had been unable to be about for several months before his death. The funeral service was held at the home, and the remains were interred in the hills cemetery across the river Friday afternoon.

Mr. Sward leaves a wife, who is also a very aged woman, and several children.

CAMPAIGN OPENS.

Headquarters for the Progressive party of Pike county have been opened in the Thornbury block, near the railway station, under the direction of H. M. Hoskins, Moore candidate for Congress, and he is preparing an active campaign.

The race for Congress this year will be in many respects the most interesting race of the campaign, being a three-cornered fight, with Hon. John W. Langley, the present Congressman, as the Republican nominee, and E. T. Hatcher as the Democratic nominee. Mr. Langley, with Judge Rolt, H. Winn, of Mt. Sterling, and former Governor Augustus E. Wilson, Republican nominee for Senator, will address the people of Pike county at the court house in Pikeville this afternoon at one o'clock. These will be the opening guns for the Republican side of the campaign, and it is said that Hon. Jos. Kehoe, Hon. H. V. McWhorter, ex-Secretary of State, and Hon. Thos. J. Hollin, Congressman from Alabama, and one of the most brilliant speakers of the nation, will appear here later to present the Democratic issues, but the dates for these have not yet been definitely fixed. The Progressives are making active efforts to have Col. Roosevelt tour the Sandy Valley next year, from indications it appears that they may be successful.

This is to be the warmest campaign Eastern Kentucky has known in many years.

CUPID IN PIKE.

The following marriages were recorded in the office of the County Clerk at Pikeville since Oct. 1: A. E. McNeal, 27, to Miss Emma Justice, 23, of Month Ford.

Alex. Coleman, 21, to Miss Carrie Blackburn, 18, Racoon.

Trigg M. Wheatley, 24, photographer, of Magallowin, to Miss Lillie Montgomery, 20, of Lackey, Ky.

Adam Adkins, 25, to Miss Eliza Rowe, 16, Lookout.

John H. Tackitt, 24, to Miss Grace Ramsey, 18, Shelbyana.

Plenney Justice, 19, to Miss Hattie Justice, 21, Racoon.

BRIBERY PROBE CONTINUES.

The grand jury in session continues the probe into charges of vote buying and selling. Although wholesale prosecutions and disfranchisement are sure to follow this investigation, public interest and concern are at low ebb, and there is no talk on the subject to be heard on the streets of Pikeville. This is due mainly to the fact that no indictments have yet been returned into court, and the results of the investigation have so far been kept from the public. But it is reasonably certain that between 500 and 700 true bills will be returned into court at the close of the investigation.

It is said that the mode of prosecuting these cases under the statute is to offer immunity to the purchaser in consideration for his testimony against the seller, which on its face appears to be an unjust one. The spirit of the statute is to the effect that the purchaser is more guilty than the seller. And this is a just view; for in many cases the seller is pushed by hard necessity to yield to the demands of the election shark. His ignorance pleads for him, and the better learning of his seducer makes the latter's position an inexcusable one. The statute fixes the punishment of the seller 1860, 1860 at from fifty to five hundred dollars fine and exclusion from office and suffrage. Sec. 1587, which fixes the penalty of the purchaser of the vote, includes a prison sentence, and reads as follows:

"Whoever shall bribe another shall, on conviction, be fined from

Here is excellent proof that a western atmosphere is not a panacea for a consumptive. News has reached here that Floyd McClung died on last week in Colorado Springs, Colorado. Mr. McClung was the son of a distinguished Southern Methodist preacher, a true and noble young man. The family resided here for many years and journeyed west for health's sake. The best consumption cure is a prevention and it will pay every one to study the bulletins issued by the State Board of Health on this subject.

Judge S. W. Hager and wife, of Owensboro, are visiting their many friends and relatives in Eastern Kentucky. The judge is a native of Salsburgville where he has many relatives and a host of admiring friends. He was for many years a resident and prominent business man of our sister city Ashland. Besides being elected County Judge of Boyd, he has held and filled with great credit the office of State Treasurer, and then was elected State Auditor. He ranks high in state politics and is now one of the State Board of Election officers. He is editor and proprietor of the Owensboro Enquirer which ranks as one of the very best dailies of our state.

SELECT YOUR SEED CORN NOW.

Now is the time to select your seed corn for next year's planting. Kears selected from the field should be gathered before the corn is cut. There are several important points to bear in mind when culling out the ears you wish to save for planting. You should select from strong, vigorous stalks, one that stand up straight and taper off towards the top from a large base. Don't select those stalks that have stood on low, moist ground or that in some ways have had more favorable opportunity for growth than the rest of the crop. Such opportunities cannot be inherited and the corn grown from such stalks may not do so well under ordinary conditions. Take those ears that grow low on the stalk. Select those that have short shanks and that otherwise show the characteristics of a healthy, normal ear.

Select between forty and fifty ears for each acre to be planted next year. It only takes twenty ears to plant an acre, but it is best to allow a margin of safety so that you can try the germination test later on and by this second selection only take those ears that promise best.

BOTH LEGS CUT OFF.

The body of Pearl Stamper, who was run over Monday by a train near his home at Rawley, W. Va., arrived in Ashland, and the funeral services will be conducted Friday morning.

In the accident which resulted in his death, both of the unfortunate young man's legs were severed from the body. Stamper was 23 years of age, and is survived by his wife and one child.
